

Digital Technology: IT Infrastructure

Maintain IT infrastructure for your organisation and support the delivery of business systems and IT-related processes

This qualification covers areas such as producing documentation to support organisational process delivery, defining requirements to support project delivery, contributing to implementing on-premises physical network infrastructure, contributing to configuring and maintaining cloud infrastructure, assisting with implementing wireless network infrastructure and supporting cloud migration.

Our IT Infrastructure SVQ has been designed for individuals who are based within a physical IT working environment.

Entry Requirements:

- Candidates must be 16+
- The candidate must be employed as an ICT Professional
- The candidate must be contracted to work at least 16 hours per week
- Candidates must have a desire to develop their skills and a willingness to learn

Qualification Levels:

- Modern Apprenticeship at SCQF Level 6

What does it Involve?

By enrolling, apprentices will be able to develop and showcase their skills such as implementing on-premises physical network infrastructure, supporting cloud migration and assisting with implementing wireless network infrastructure.

An Ideal Qualification for:

- IT Infrastructure Engineers
- Network Analysts
- IT Service Helpdesks
- Support Technicians
- IT Support Specialists
- Systems Analysts

“I really can’t express just how much my assessor has helped me over the course of my apprenticeship and how easy he has made it to progress through it.
